

LaRC SAFETY HIGHLIGHTS

June 11, 2001

FY 2001 - Civil Servants

() = Number of new occurrences

OSHA Recordable Cases = Fatalities, Lost Time and Incidents
Incidents = Non first aid medical cases which have less than 8 hours lost time

Injury/Mishap Information

- The Center has been **119** days **without** a Civil Servant **Lost Time Injury** (Record 251 days).
- OSHA Recordable Incident - On Monday, June 4, 2001, a SEC employee operating a lathe sustained a laceration to the left forearm requiring suturing. The injury occurred when the employee's hand slipped while tightening a tool bit into the lathe tool holder using an allen wrench. The cause of the incident was determined to be the result of pushing the allen wrench instead of pulling it to tighten the tool bit in the holder.
- No first aid cases involving civil servants were reported.

Safety Information - Systems Operations Committee:

- Conducts reviews and provides guidance of activities such as operating a facility from a total system standpoint.
- Recommends requirements, standards and practices for standard and acceptable interim operating procedures.
- Provides operation safety reviews for minor facility modifications and equipment not scheduled for review by the project review system.
- Maintains an overview of development in operations safety.
